The State board of health shall have full control and oversight of emergency intakes. It may, when feasible and deemed necessary for the protection of public health, upon reasonable notice require the abandonment of any existent emergency source and the adoption of other means of supply; and if in its judgment the circumstances warrant, it may order the permanent installation and continuous maintenance in connection therewith of some approved form of disinfecting apparatus or equipment. In case said board shall require the abandonment of any such emergency source, the person, corporation, or association aggrieved thereby shall have an appeal to the superior court in term time or vacation, said appeal to be taken within 30 days from the receipt of the order from said board, and said court may make such orders thereon as justice may require.

"SEC. 4.
